

Student volunteers are the heart and soul of RING.

At RING, we form partnerships with local and national organizations that aim to enroll uninsured Americans in health coverage and other foundational resources (things they need to stay healthy). This keeps underserved populations out of hospital emergency rooms – the costliest sites of care - and promotes healthier lifestyles for them and their families.

Here's what our volunteers do:

- ✓ **Lead** state-wide student efforts to reduce health disparities in underserved populations
- ✓ **Coordinate** and **Promote** advocacy and outreach events with our partners
- ✓ **Provide** one-on-one application assistance with enrolling in the Health Insurance Marketplace as Certified Application Counselors
- ✓ Please note that CAC training is optional for volunteers! There are many other ways to stay involved with us.
- ✓ **Screen** the uninsured for eligibility in other federal, state and locally-administered benefits and services

Our partners (and your potential future employers) include the U.S. Department of Health and Human Services, the Emory-Grady Urban Health Initiative, Georgians For a Healthy Future, the Institute of Medicine, Seedco and more!
